EAST METRO MUSIC ACADEMY

To Whom It May Concern:

I am writing to express complete satisfaction with the job that Keith Johnson and the staff at ASI performed for the East Metro Music Academy (EMMA).

EMMA sought the expertise of nine firms as we debated whether to rehab and lease 3000 square feet of retail space in a strip mall for the purpose of music lessons and classes. EMMA's budget was very limited, and we had volunteers who wanted to help.

The bids and solutions varied widely. However, Mr. Johnson stood out far and away above his competitors. Keith took several trips out to the site to measure and make suggestions, he truly listened to what EMMA's needs would be, and recommended solutions we would have never considered. He respected our budget limits and came up with great, creative solutions. Best of all, in a tough negotiation session, he completely impressed a reluctant landlord and helped us secure the lease.

I could go on and on in a world of substandard customer service everywhere, and in the field of acoustics which can be so mystifying, Keith Johnson and the staff at Acoustical helped the East Metro Music Academy find solutions to our sound abatement needs. We are indeed grateful for their advice, work and professional service. I would highly recommend this firm to you. Regards,

*Joe Sullivan, Executive Director,
East Metro Music Academy,
a non-profit community music school*

WOODBURY METHODIST CHURCH

To Whom It May Concern:

When we built our new youth room, we were excited to start using it. We wanted a multi-purpose space to hold small concerts, speakers and to have a place for kids to hang out and play games. The only problem was that no one could hear a word anyone else said without speaking a lot louder and more exaggerated. We had a great space, but a terrible echo! It was a struggle to have meetings, or any youth activities. We had a great sound system, but couldn't use it. Before we installed our acoustical treatments, the echo lasted almost 4 seconds, now it is down to less than one. Better than that, people want to use the space. Now we can use it for everything we planned on and more!
